EDUCATION

OCAD University

2026

Bachelor of Design (Honours) – Industrial Design

WORK EXPERIENCE

Highline Beta | Junior Designer

October 2025 - November 2025

Designed a two-part networking solution at a venture capital firm in 2 months

- Created 2 functional 3D-printed NFC prototypes in 1 week
- All 3 proposed ideas were considered for integration by platform director and product team
- Strengthened future event development by presenting a feasible timeline, user psychology research, and emerging trends through Figma

iEmbrace | Product Designer

February 2025 - September 2025

Designed a meditation device for a mental wellness startup company

- Translated the design process between managers, engineers, and software developers
- Created final prototype and high-fidelity digital renders via Fusion360 and Blender in 2 weeks
- Presented 15+ design iterations, technical drawings, material research, and 3D-printed prototypes

RELEVANT EXPERIENCE

Cadillac Fairview Service Project | Service Designer

September 2024 - January 2025

Designed and presented a seasonal event system and loyalty program to CF representatives

SKILLSET

- | | |
|---|---|
| - AI Literacy (<i>Claude, Stitch, Antigravity, Cursor, Hugging Face, Ngrok, Elevenlabs, Zapier</i>) | - AI-Assisted Full-stack Development (<i>HTML, CSS, Javascript, C++, Node.js</i>) |
| - UI/UX & 2D Software (<i>Figma, Photoshop, Illustrator, InDesign</i>) | - Ability to work under pressure |
| - CAD and assorted 3D Software (<i>Solidworks, Autodesk Fusion360, AutoCAD, Blender</i>) | - Ambition to learn new things |
| - Physical/digital Rapid Prototyping | - User Experience Research |
| | - Verbal/written Communication |
| | - Collaboration/teamwork |
| | - Fluent English, Basic Cantonese |
